

We have a very busy Summer term in Year 5. In the second week we are going to Carrotty Wood for fun, adventure and lots of mud. We will be continuing to work hard in Maths within our own class, the mixed Year 5 and 6 maths groups will resume after the Y6 SATS. In Literacy we will be basing much of our work around the class book 'The Wolves of Willoughby Chase' by Joan Aiken. Among other things we will be covering persuasive writing, classic fiction and debate poetry. In Science we will be continuing to look at habitats but also looking at animals and humans thinking about how the body works, the heart, lungs, circulation and how to stay healthy. In History our topic is The Aztecs – we will be thinking about when and where they were alive, their beliefs and everyday lives.
